INSTALLATION: Add 112 to 1" height of tub at point (J) to allow space for bedding compound. All Whirltech Whirlpool Blubs require mortar to be placed under the tub bedding. Please measure before building tub cabinet. Call Whirltech Whirlpool Bath for details. Measurements are plus or minus 1/2", unless noted otherwise. Filling this tub to the maximum may require an additional 1/2" pipe size or dedicated water heater.

This data sheet is valid for all specifications published prior to this date.
