(Q) Center of overflow opening to bottom of base rail

(!) Tap of tub deck to tub rear at deepest point

(Q) Bottom of tub lip to bottom of base rail

(R) Tap of tub deck to bottom of base rail

INSTALLATION: Add 1/2" to 1" height of tub at rear (Q) to allow space for bedding, gasket, and pump. All Whirlpool Baths require a pump to be placed under the tub or tub bedding. Please measure tub before building tub cabinet. Drawing shows standard pump location for this tub. Custom pump locations available - please call Whirlpool Baths for details. Measurements are minimums and may be subject to change without notice. Filling this tub to the maximum may require an additional filter size or dedicated heater. This drawing sheet supersedes all specifications published prior to this publication date.
